**ASSOCIATE TO JOIN OUR TEAM IN WILTSHIRE – CHIPPENHAM CHIROPRACTIC CLINIC**

We seek a confident, motivated chiropractor to take over an established patient base now that our team member, Kate, is leaving us after 7 years.

The successful applicant must have good communication skills, reflecting a caring, empathetic personality, and be competent in a range of diversified techniques, to include a basic knowledge of soft tissue, blocks and activator applications. Dry needling will be an advantage.

Michael Copland-Griffiths will work with you on a one-to-one basis at least once a week to start with, reviewing patient management skills, addressing any concerns you may have and learning from you. It's a two-way relationship, with your knowledge and his 40 years' experience generating a positive, dynamic input to the practice.

Every quarter the key members of our team join a day-long workshop when our ChiroClub mentors visit us to review and plan ongoing marketing, business management and forward-planning targets. It's an opportunity to re-vitalise our team, with ChiroClub challenging our perceptions, helping us to re-centre our objectives and motivating us to do better.

You will start working on Mondays, Thursdays and Saturday mornings. You will be involved in expanding the practice and with various marketing exercises to accelerate growth. The goal is to aim towards more hours, possibly to a full-time position if that suits you. Ultimately the right Associate will have the opportunity to take over the practice as owner.
