### WEST LONDON PRACTICE FOR SALE

Situated at the north end of the Portobello Road in London's Notting Hill. Private street level access and ground floor level throughout (approx 900sq feet). Current lay out is set as generous reception area, changing area and very large treatment room. Could be divided easily to create second treatment space. (Current owner opted for x-ray facilities, but has since outsourced this to a local private diagnostic centre).

The practice was established 8 years ago and sees on average 6-8 new patients weekly along side reactivations and maintenance patients in the region of 50 per week (over 3 days). This is not a high volume practice, and as such will see a patient on average between 4 and 5 visits before discharge. This approach has the benefit of creating steady referrals to the practice. Organic (non paid) internet searches provide around 40% of new patients. There is no advertising costs other than maintaining the website. It has a very good working relationship with local independent gyms. A remote reception service covers phones from 8:30am to 6pm Monday

to Friday (total annual cost of this is 5% of full time staff). Turnover is around 75K/year.

Would suit a young Chiropractor/s looking for independence.

Currently there is 2 years left on a ten year lease (£1500/month), with a very good, proactive landlord.

Reason for sale: practitioner is relocating to the South West of England.

Offers in region of 40K
