

Lease UK is a specialist equipment finance brokerage which is delighted to be working with the BCA and its members. We have a substantial presence in the healthcare market and this commitment has allowed us to gain an understanding and appreciation of the unique challenges that healthcare professionals face. We treat our Customers in the same way as we would like to be treated ourselves. Your call or email will be answered promptly by a member of the team who really does appreciate you getting in contact and understands how to help you best. Established in 1995, we have extensive industry experience which means that we can help tailor solutions that work for each BCA member's current and future requirements. We can deliver extra value that is simply not available from a single finance house directly.

Our knowledge and reputation has allowed us to develop strong relationships with the leading finance companies in the market place. We have assembled a panel of finance companies that understand the healthcare market and are very keen to write business in this sector.

As a valued BCA member, Lease UK is delighted to put this expertise at your disposal. We have negotiated specialist medical rates with our funders which means you will have access to highly competitive finance facilities for all your potential business. These will be professionally managed through one central point of contact and payment frequencies and terms can be tailored to suit your individual financial needs.

Here are just some of the benefits that BCA members will enjoy by working with Lease UK:

**Competitive Rates:** We have negotiated specialist medical rates which means that you will have access to highly competitive finance facilities for all of your requirements. Just quote your BCA membership number when you contact us to secure these.

**Asset Finance (Equipment Hardware and Software)** – this can be on either a Lease Rental or Hire Purchase basis dependent on what is the most tax efficient for your practice. We are focussed on helping our customers invest in the new equipment that they need today and most importantly to arrange facilities that allow them to pay for it out of tomorrow's revenue.

**Lease UK Lease Desk:** One telephone call or email gives you access to an experienced member of the team who is at your assistance. We put together finance applications, negotiate credit acceptances and deal with all the necessary finance related issues on your behalf. This service leaves you free to concentrate on running your practice.

**Variety of Additional Finance Options:**

Refurbishment and Business Loans – unsecured loan facilities are available to help you improve your business premises or perhaps help you with working capital or business expansion facilities?

Vehicle Finance – we can arrange facilities for the car or commercial vehicle of your choice again on either a rental or hire purchase basis.

Short Term Funding – facilities are available to help you spread the cost of your Corporation Tax or VAT liabilities which can cause unwelcome spikes in your cash flow. These could be managed more effectively through a regular monthly repayment rather having to make a one-off lump sum payment.
