## UNMISSABLE CHIROPRACTIC OPPORTUNITY!

Want to earn between £40 and £50k in the first year? Then more in the 2nd year?

Want a job that gives 24/7 support, PRTS training and our very own bespoke mentored development program (if required) that guarantees you will become an awesome Chiropractor?

Want the best of both worlds where you can have fun doing the job you love and get hugely rewarded for it in the process?

Then get in touch!

We are a bustling family run multidisciplinary clinic with a strong reputation for actually putting the patient first. One of our team is sadly relocating and we need a new Chiropractor armed with only 2 things: a licence to practice and an exceptional attitude. It's great if you were top of the class, but what we really need is someone who loves working with PEOPLE.

When we find the right candidate they will immediately inherit a strong patient list ready to go on day one, and benefit from a strong and supportive team in a modern clinic with massive build potential and excellent links to the local community and allied health professionals. We have developed a large and happy patient base; we don't advertise as the majority of our new referrals are through word of mouth, and as a clinic we average over 80 new patients a month.

As a very experienced team we have a broad collective range of Chiro skill: spinal, extremity, diversified, sports, pregnancy, exercise rehab, diagnostic ultrasound... the list goes on. We also have a digital Xray suite (don't just study radiology for years and then never actually take an Xray!).

If you are all mouth and no trousers, then this is probably not the place for you. However, if you are a 'grafter' prepared to throw yourself into Chiropractic in order to reap the personal and financial rewards, then we want to hear from you - newly qualified or already in practice - all applications will be considered.

Half day shadowing is available with our Chiro team anytime as a chance to get a feel for who we are and what we do.

Gloucester, Cotswolds Immediate start available; self-employed; high earning potential.

### **BUSY, ESTABLISHED ( 30 YEARS ) PRACTICE FOR SALE IN WEST YORKSHIRE**

This busy clinic based in Halifax, West Yorkshire has been treating patients in excess of 30 years and is now for sale due to retirement and relocation of the current owner.

Halifax sits on the edge of several National Parks and is less than an hour from Manchester and half an hour from Leeds.

We consistently see between 10-16 new patients a week and have over 9000 registered patients. All this without any advertising and we never, ever do free screenings.

The clinic employs two full time chiropractors with a combined annual turnover of £250,000.

We use two top of the line Galaxy Ultimate Lloyd tables, each costing £15,000 and an X-ray machine ( new in 2006 ) all of which are included.

The property is a recently modernised three storey Victorian terrace. At present we only use the ground floor; the upper floors could easily be used for treatment if desired but currently has residential planning permission. The rear of the property has level access ( great as it can be used by wheelchair users ) via a large car park which can accommodate up to six cars.

The business property is owned by the retiring chiropractor ( freehold without VAT ) and has just been valued at £160,000.

The clinic business is available with or without the property.
