BUSY, ESTABLISHED (30 YEARS) PRACTICE FOR SALE IN WEST YORKSHIRE

This busy clinic based in Halifax, West Yorkshire has been treating patients in excess of 30 years and is now for sale due to retirement and relocation of the current owner.

Halifax sits on the edge of several National Parks and is less than an hour from Manchester and half an hour from Leeds.

We consistently see between 10-16 new patients a week and have over 9000 registered patients. All this without any advertising and we never, ever do free screenings.

The clinic employs two full time chiropractors with a combined annual turnover of £250,000.

We use two top of the line Galaxy Ultimate Lloyd tables, each costing £15,000 and an X-ray machine (new in 2006) all of which are included.

The property is a recently modernised three storey Victorian terrace. At present we only use the ground floor; the upper floors could easily be used for treatment if desired but currently has residential planning permission. The rear of the property has level access (great as it can be used by wheelchair users) via a large car park which can accommodate up to six cars.

The business property is owned by the retiring chiropractor (freehold without VAT) and has just been valued at £160,000.

The clinic business is available with or without the property.
