Still in doubt?

This is what one of our associate chiropractors said about us:

I have worked at Milton Chiropractic for over five years. From the interview to the day it has been a great experience. It is a forward-thinking environment with very supportive leadership. The goal is to help everyone reach their full potential, both patients and clinicians. The core of the practice is chiropractic with an open positive attitude to new ideas and techniques. Working and living in Cambridge is also a fantastic experience because it offers a high quality of life and a high caliber of people." M.Dochnal

- We're looking for someone who relishes working in a team, is committed to ongoing learning and who puts the care of their patients first.
 - Our clinics are multidisciplinary, including physiotherapists and currently Sports Therapists. We work closely with local spinal neurosurgical, orthopaedic, radiological and pain management consultants.
 - In total, we have 5 treatment rooms, all equipped with RM3 Atlas tables. Solihull has onsite digital x-ray imaging. We use local hospitals for private MRI referrals.
 - The working atmosphere is friendly and nurturing. The salary would be based on a generous percentage, backed up by a minimum income guarantee.
 - The working hours can be matched to the chiropractor's needs but we expect one evening a week and one Saturday morning a fortnight. We are currently looking at buy-in schemes for loyal associates. We have formal, monthly chiropractor meetings for teaching and case reviews. PRT meetings are weekly and backed by our many years of experience in helping new graduates with their clinical development.
 - The clinics have a combined average of over 100 new patients a month.
 - We are happy to accept new graduates or experienced chiropractors.
 - David Evans DC MSc FRCC and John Lange DC MSc FRCC are Principals of the Solihull and Dorridge clinics. Both David and John are AECC graduates with over 30 years of clinical and educational experience.
 - Our Solihull clinic, established in 1989, is modern and purpose built. Our Dorridge clinic, established 5 years ago, is based at a large GP Health Centre. Our approach to patient management is 'traditional' and caring.
 - Solihull and Dorridge are very pleasant, prosperous suburbs of Birmingham, situated in the West Midlands. The nearby motorway network and international airport allow easy travel to most destinations. Major shows, sporting events, theatres, shops and restaurants are in abundance and the leafy Warwickshire countryside is nearby.
- If you are looking for a modern practice, based on a traditional caring approach, please get in touch.

I have recently moved into a brand new practice, rebrand/logo and new website (still in refurb mode atm). You will be happy to hear I installed A/C throughout the whole practice for those very hot 2 summer days a year 😊
I am looking for an associate as I can no longer cope with all the new patients booking in every week. I will be more than happy to give all new patients to you to grow your patient base.
If you fancy starting on a part-time basis or if you would like to grow your patient base to a full-time position, both is most welcome.

The practice has been established for 5 years and has an excellent local reputation. I would describe my practice as a patient centred, providing individual, evidence based, informed and supportive care for patients.
Our patient base is quite young which means you will be able to practice your adjusting skills which is a great bonus for a new or recent graduate.
if this sounds great to you, please email Sophie with your CV and cover letter.

Marodyne LiV is the world's first advanced medical device certified to prevent osteoporosis and build bone. The NASA research team refined the concept through years of testing, developing a fully functioning and highly effective Low-Intensity Vibration platform.

Marodyne LiV sends out signals corresponding to natural, mechanical movement impulses to the skeleton every step we take. The frequency is calibrated precisely to stimulate osteoblast (bone-building) activity while inhibiting osteoclast (bone wasting) activity.

Studies show that 10 minutes of LIV a day can help to keep bones strong and healthy and prevent osteoporosis.

Step on to the Marodyne LiV, and it automatically calculates weight and delivers the right amount of vibration for your patients to prevent osteoporosis and improve bone health.
