Lancaster Chiropractic Clinic: Chiropractor retiring

Established 35 years, two part-time chiropractors worked 5 days a week between them until the first partner retired at the end of last year. The second partner, who would also like to retire, is currently only working 2 days a week; consequently there is now a 4-5 week waiting list for new patients so presumably the practice has the potential to expand again and resume operating full time.

We have been practicing from our home, so there are no premises for sale. If anyone is interested in taking over we will be passing on the name, equipment and patient list/goodwill.

Lancaster is a small city on the River Lune in north Lancashire, three miles from Morecambe Bay. The population of the Lancaster/Morecambe conurbation is 126,000. Lancaster city is the cultural hub and economic and commercial centre of the Lancaster local government district which is largely rural and includes part of the Yorkshire Dales National Park and parts of the Arneside & Silverdale and Forest of Bowland Areas of Outstanding Natural Beauty. Kendal (Lake District) is 25 miles/30 minutes away and Kirkby Lonsdale (Yorkshire Dales) is 15 miles/30 minutes away. The city has good communications: two junctions with the M6 motorway and the rail station is on the West Coast Main Line.

Anyone interested in taking over the practice please email cduplockchiro@gmail.com
